FLAVIA brews better

Our innovative single-serve brewing process:

SOURCE: We start with the highest quality ingredients – freshly roasted and ground coffee, real-leaf and herbal teas and premium hot chocolate.

SEAL: We pack our carefully sourced ingredients into the unique FLAVIA Freshpack locking in their freshness and flavour.

SERVE: We specially designed the Freshpack to work with the FLAVIA machine. Together they create an optimal brewing cycle within every pack. Each drink is brewed directly from pack to cup with no taste contamination, so your tea will never taste like the coffee that was made before it and vice versa.
